<b>What in the box</b>	<p>The power adapter and earphones are not included with the iPhone SE since we are trying to reduce our impact on the environment. A USB-C to Lightning cable that supports rapid charging and is compatible with USB-C power adapters and computer connections is included in the package that you purchase this product in.</p> <p>We strongly suggest that you keep using the USB-A to Lightning connections, power adapters, and headphones that you have been using up until now with this iPear. They are all compatible with it. However, if you require any new Pear power adapters or headphones, you can purchase them from the Pear online store.</p>
